ALIVE IN A COFFIN .- A certain undertaking firm on Main street have been moving their goods from the Walsh building to that of Jacobs. In the rear of the latter building they had a lot of untrimmed coffins piled up just under a sky-light, the top casket being open. Yesterday one of the boys, for a joke, crawled in the coffin and boys, for a joke, crawled in the coffin and was lying there, peacefully reading. Just above the skylight runs the porch of the lodging house to the rear of the store. In the lodging house is a young lady who takes care of the rooms. About this time she appeared on the scene, singing and as happy as the could be. The young man in the coffin heard her coming, dropped the paper and lay perfectly still. The girl, all unconscious of the cruel joke about to be perpetrated, casually glanced through the skylight, and her gaze rested on the casket and the apparently dead man within. Her eyes began to grow larger and a peculiar The steamer JOHN W. The young man, almost dying with suppressed laughter, winked his eye. The girl gasped. Then he opened his mouth and the watcher grew pale. He raised his foot and her fortitude gave way. She gave a terrible scream and feli over fainting on the skylight, shattering the gas and likewise shattering the nerves of the practical on the skylight, snattering the gas and like wise shattering the nerves of the practical joker, who jumped suddenly up, and over went the funny man, coffia and all, to the floor fifteen feet below. The young man was bruised and scared, while the alarmed folks above picked up the insensible girl, and after ten minutes' work succeeded in restoring her to consciousness.—Chico, (Cal.) THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value Within the last few days bona fide sales have been made AT PAR.
